Dealer and Grower of
Exciting N E W Varieties

Greetings to old friends: It has been a pleasure to serve you nice folks. For many of you, this will be the sixth year. We thank you.

New friends: Growing violets is a fascinating and a delightful hobby. You will find violets very easy to grow from leaves. You will thrill to each new leaf and bud as they unfold. You will be proud and happy when you see your windows full of beautiful flowering plants you, yourself, have grown. Most varieties will produce flowering plants in 5 to 8 months — depending on your growing culture and conditions.

Service is our chief commodity. We offer no so-called bargains nor quantity prices **Quality is not expensive — it pays.** Please do not ask us to mail rooted-cuttings. After several years' experience, we have found that fresh cut leaves travel more safely than rooted leaves. There is no danger of damage from dry roots or root and leaf rot from surplus moisture. Our leaf-cuttings are fresh cut leaves from strong, healthy, stock plants especially reserved for propagating purposes. The plants have not been "forced". Each leaf is labeled with its authentic name, and separately sealed to preserve growing vitality. Shipments are scientifically packed and sent first class mail to insure reaching you quickly and in the best condition. A packet of special chemical and simple growing instructions are included in all shipments — to prevent leaf-rot while rooting and, to assure your success. We **guarantee** safe delivery to any mailing point in the United States or Canada. All orders are numbered as received and promptly acknowledged. Shipments are made in the same order sequence, as soon as weather permits. Hence, we strongly urge you to send in your orders early, to avoid disappointment, because we reserve the right to refund your money if we are unable to fill your order. We **never** substitute unless requested. The attached order blank is for convenience — hurry it back to us so we can make you happy at the earliest possible date.

NOTE: On orders under \$5.00 add 75c handling charges. Orders of \$5.00 and over are mailed without extra charge. No orders accepted from this catalog after October 10, 1956.

PLEASE NOTE: A gift leaf of our choice will accompany all orders. In addition — with an order totaling \$7.50 you may choose one extra 50c leaf FREE — with an order totaling \$10.00 choose two extra 50c leaves or one \$1.00 leaf FREE.

While we have been growing over 40 varieties of double pink, we have selected only 9 varieties for cataloging — these we consider outstanding. We will have plants in a number of other new varieties — including some double pink not released at printing time — available for you friends who visit us in late spring and summer.

Angle Lace—Heavy large white flower with a lovely lilac-blue fringed edge. On medium green, round, supreme foliage. Worthy of a groom. 50c.

Bit 'o Blue—Large powder-blue flower with white eye and white reverse, on good dark fol. Very good. 50c.
